

FGP FRONT GENERAL PURPOSE LOADER BUCKET

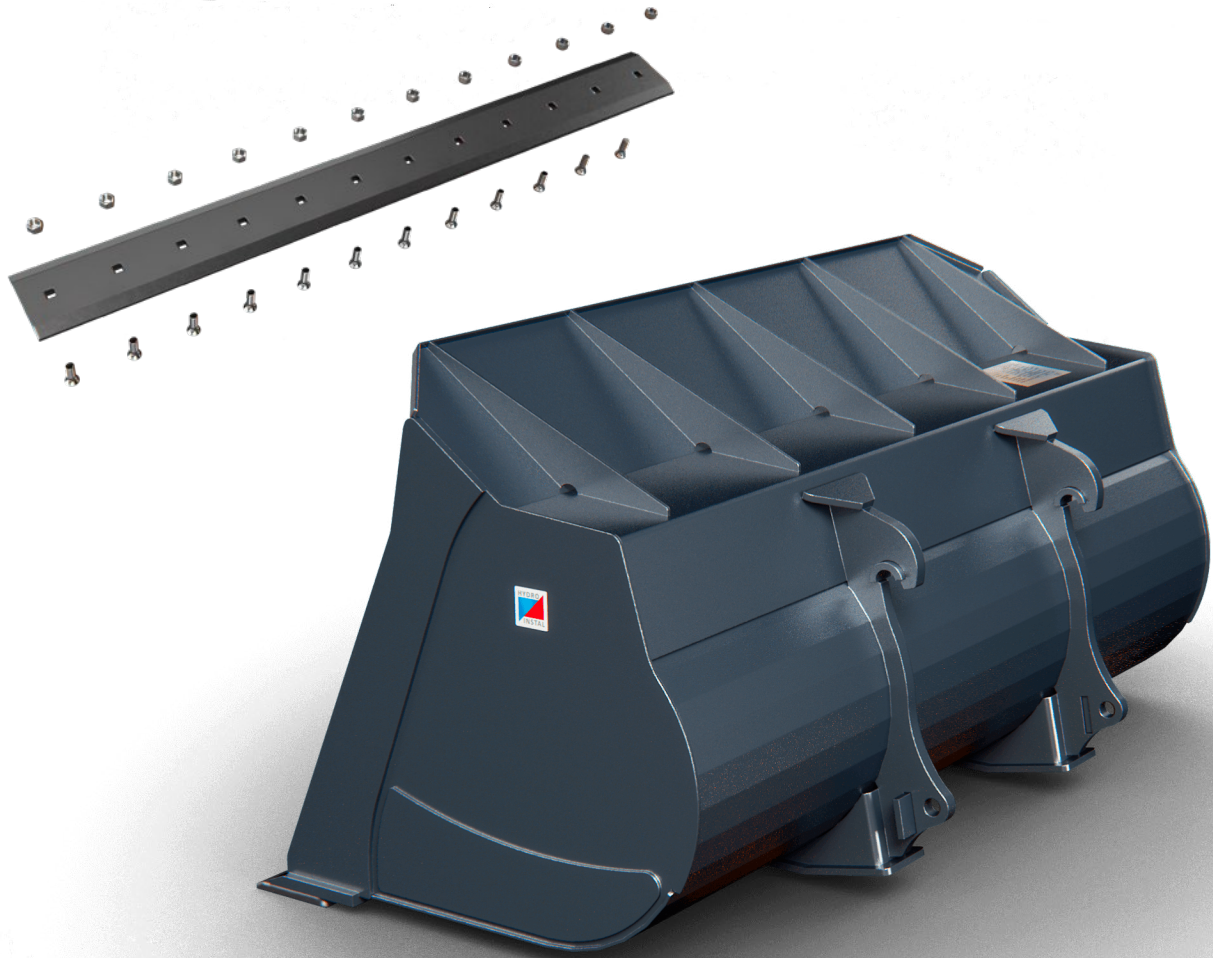

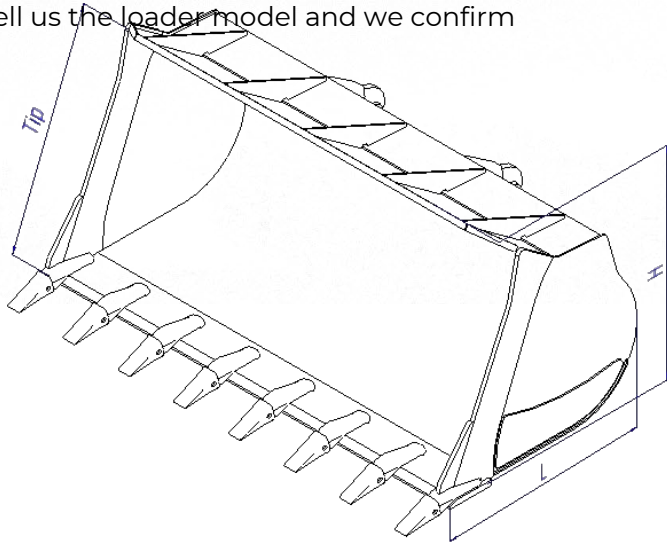

General purpose bucket for wheel loaders: loading, light digging and moving loose material. Sizes for loaders from 2 to 6 t and from 12 to 24 t.

Key Features:

- For loaders from 2 to 6 t and from 12 to 24 t. Tell us the loader model and we confirm the bucket size.
- Loading and light digging profile
 - Widths from 1900 to 3200 mm
 - Capacity from 1045 to 4830 l (SAE)
 - Sized to your loader

The FGP general purpose loader bucket is used for:

- Loading and carrying loose material
- Light digging
- Site cleanup and rubble removal
- Landscaping and construction sites
- Moving rubble

The FGP general purpose bucket loads and carries loose material with a wheel loader. It also handles light digging, site cleanup and moving rubble. Capacity is an SAE rating, so it can be compared with other loader buckets: 1045 to 4830 litres over widths from 1900 to 3200 mm.
